

Emotional Intelligence - Academic Discussion Essay Prompt

Your professor is teaching a class on business. Write a post responding to the professor's question.

In your response, you should do the following:

- Express and support your opinion.
- Make a contribution to the discussion in your own words.

An effective response will contain at least 100 words.

Professor - Dr. Allen:

Often, job success is attributed to skills like creativity, leadership, or technical knowledge. However, emotional intelligence is gaining recognition as a vital asset in the workplace. Debate the significance of emotional intelligence versus other skills in professional settings. Which do you believe contributes more to a successful career, and why?

Student discussion on the forum:

Kirsten:

Emotional intelligence should be valued highly in a professional setting. It helps build strong teams, enhances communication, and fosters a positive work environment. While technical skills can be learned, emotional intelligence is a more innate quality that contributes significantly to successful collaboration.

Joel:

Despite the importance of emotional intelligence, core competencies and technical skills should not be overlooked. Without necessary skills, a professional cannot perform their job effectively, no matter how emotionally intelligent they are. In essence, professional skills are the foundation of any successful career.
