

# 2-Month Study Schedule for the GMAT

Suppose you need to prepare for GMAT in 2 months, starting from square one. You'll need a good GMAT study guide, dedication, and the willingness to study hard for the next ~60 days. Studying for GMAT in two months might not give you a whole lot of time, but we're here to help you with this 2 month GMAT study plan to make the best of what you have. 😊

## Table of Contents

[How to Use This 2 Month GMAT Study Plan](#)

[Essential Study Materials](#)

[Abbreviations](#)

[The 2-Month GMAT Study Schedule](#)

## Getting Started

### How to Use This 2 Month GMAT Study Plan

This GMAT study plan is not for the faint of heart. It supposes that you study between 1.5 and 2.5 hours per day, though it occasionally requires slightly more time, 6+ days a week.

I know it will be hard to stick to this GMAT schedule if you have a full-time job, children, or other family obligations. If either (or all) of these are the case, we'd suggest reconsidering your GMAT test date. Yes, it's a little annoying to pay the [GMAT rescheduling fee](#)—but it's far better than taking the exam before you have time to fully prepare and needing to pay for a retake.

- If possible, follow a three-month or six-month plan.

If you are committed to a 2-month schedule this plan will be time-consuming and require hard work, dedication, and focus to get through, but we know you can do it.

Now, you can just dive into this plan! However, you'll find it more effective if you use it methodically. To get the most out of this GMAT study plan, approach it with as follows:

- Make sure you have all the essential materials.
- Maintain your motivation. Writing down why you want a particular score on the GMAT—and reviewing your reasons often—can be a powerful reminder to keep you going!
- Maintain your physical health. Eat well and get physical activity as much as you can!
- Sleep for eight hours! Get enough sleep during this three month period. REM sleep plays an important role in encoding long term memory!

- In an eight hour period of sleep, the last hour has the most REM.
- Avoid artificial crutches: Caffeine and energy drinks will keep you feeling awake if you don't get enough sleep, but they don't do bupkis to replace the lost opportunity to encode more information into long term memory.
- Bring it all together for test day! Review Magoosh's tips at the end of this post for how to make sure you do your best when it (officially) counts.

## Essential Study Materials

Here are our recommendations for resources that will provide you with test-like practice:

### [A Premium subscription to Magoosh](#)

[Magoosh's Complete GMAT Guide](#): This comprehensive web-based guide gives you a quick and useful overview. You'll see how the GMAT is designed and scored, what skills it tests, how to find and use the best GMAT prep, and how to study for each test section.

GMAC's *GMAT Official Guide* (OG)–The newest edition of the e-book and online question bank is here: [OG 2023-2024](#). If you are going to buy a new guide, get that one. Want a paper copy? Check out [this link](#).

**Word to the wise: Don't write in the official guide or any prep books.** Do all your work on separate paper or on a computer. You will want to keep the books clean, so

that later, if you need to look at a problem again, it is still fresh and unmarked.

[An Error Log](#). Not sure what's up with an error log. The link at the beginning of this sentence will walk you through the benefits and provide you with access to a [Free template](#).

**Note:** The GMAT underwent major changes in 2023. So, you might be wondering what to do if you have prep materials that were produced for older versions of the GMAT. Good news! You can absolutely keep and use those older materials; however, there are a few topics and subject areas that you should skip if you do choose to use older materials. Here's what you should leave out:

- Lessons/practice for Sentence Corrections
- Lessons/practice for the Analytical Writing Assessment (AWA)
- Lessons/practice for quantitative questions that test plane geometry concepts
- Lessons/practice that use the Data Sufficiency (DS) question type to test purely algebraic or numeric property concepts. DS questions now all either test verbal reasoning skills or math in a real-world context (aka) word problems based on realistic scenarios.

## Optional Materials

[The Magoosh mobile app for your iPhone or Android](#)

The [OG Verbal Review 2023-2024](#), the [OG Quantitative Review 2023-2024](#), and the [OG Data Insights Review 2023-2024](#). These links will take you to the e-book and online question banks available from

the [Exam Prep](#) section of mba.com. You cannot go wrong if you use materials produced by the folks who write the exam.

[GMAT's additional official practice exams](#), which are now entirely digital.

The [Magoosh GMAT Math Flashcards](#). If you happen to see a deck for plane geometry concepts, remember to skip those since those concepts are no longer tested on the GMAT.

If you've exhausted the OG and Magoosh materials, another credible option is [Manhattan's All the GMAT book set](#). It is an excellent prep source. (Don't write in these books either!)

The two online forums:

[GMAT Club](#)

[Beat the GMAT](#)

These are great places to ask questions about anything GMAT related, or simply to check out the discussions and see how others are preparing.

## Abbreviations

**OG** = the GMAC Official Guide

**QR** = Quantitative Reasoning, the multiple-choice math questions

**VR** = Verbal Reasoning, which is broken down into the following two question types:

**RC** = Reading Comprehension verbal question

**DI** = Data Insights questions

**DS** = Data Sufficiency, which is a type of **DI** question

## 2 month GMAT Study schedule

\*The large majority of the lessons included in this schedule are only available to Magoosh students—[sign up here for a free trial!](#)

### Day 1: Diagnostic Test

- Take Magoosh’s [Free GMAT Diagnostic](#). When you are done, note your score, then check your answers.

### Day 2: Review

- If you haven’t done so already, [build your error log](#) and add questions from the diagnostic you took during the last session. You’ll be using your error log throughout this study plan. Today, you are going to do your first in-depth review. For each question you entered into your log do the following:
  - Try to determine and make note of why you missed the question
  - Read any related text explanations and watch any related video explanations
  - Watch any recommended lesson videos (don’t worry about watching them out of order. You’ll likely be watching the videos a few times, especially those that relate to your weaker areas.)
  - Be aware of any trends that help you identify your strengths and weaknesses.

Go to [the test-maker's website](#), and read all about the GMAT. Click on each of the Quick Links on the sidebar of that page to explore the exam structure, content, and to check out a few sample questions.

## Day 3: GMAT Basics

### In Magoosh, watch the following videos:

GMAT Focus Introduction: all seven videos in this section

[Gmat Focus Intro: Quantitative Section](#)

[GMAT Focus Intro: Verbal Section](#)

[GMAT Focus Intro: Data Insights Section](#)

[Computer Adaptive Testing](#)

[GMAT Focus Scores](#)

[Pacing, Skipping, and Guessing](#)

[Gmat Focus Intro: Test Day](#)

## Day 4: Quantitative Reasoning Basics

**NOTE:** Some of the information in Magoosh videos may be super easy or very challenging, brand new information. Some folks will find the verbal information obvious and the math hard-going; other folks will have the reverse experience. If the material is relatively easy for you, feel free to click to the end and simply read the summary. If the material is new to you, take notes on what you are learning, and if possible, watch that video a second time.

**NOTE II:** After most Magoosh questions is a text and/or video explanation. If you got the question right, just skim the text summary of the video to verify you understand it. If you got the question wrong, watch the video explanation right away. If you don't understand a question after reviewing the text and video explanations, email us at Magoosh.com. Due to a high volume of questions, please allow up to 48-hours for a response.

Getting questions wrong at the beginning may be frustrating, but remember that you are playing a "longer game": the point is not instant success at the beginning, but building deeper understanding overtime. Remember to add all incorrect questions to your error log!

### **Watch the following videos:**

In Quantitative Reasoning (QR), watch the following General Math Strategies videos and complete any associated practice quizzes:

[Intro to GMAT Math](#)

[Mental Math: GMAT Estimation](#)

[Quiz: Mental Math Estimation](#)

**Error Log Review: Mental Math Estimation Quiz**

[Mental Math: Doubling and Halving](#)

[Mental Math: Squaring Shortcuts](#)

[Number Sense](#)

[Quiz: Number Sense](#)

**Error Log Review: Number Sense**

[The Use and Abuse of Formulas](#)

[Learn From Your Mistakes](#)

## Day 5: OG Question Bank Diagnostic Test

### OG Diagnostic practice test!

If you haven't already done so, in the OG online question bank, navigate to Practice Exams on the sidebar. Take all three diagnostic practice exams.

Practice Exam Name	Practice Exam Length	Practice Exam Time	% Correct	Status
Data Insights Review Diagnostic Practice Exam	15 Questions	Unlimited		
Quantitative Review Diagnostic Practice Exam	18 Questions	Unlimited		
Verbal Review Diagnostic Practice Exam	24 Questions	Unlimited		

Go through the answers after you are done, taking notes on anything you got wrong.

At this early stage of practice, it is not as important to mimic the real GMAT conditions. Pay attention to how well you maintain focus within each section. Note your energy level during different sections, and how this affects your concentration.

## Day 6: OG Diagnostic Test Review

### Review

If you didn't do this yesterday, open your error log for a deep-dive review of the practice test. During this session with your error log, determine which question types you are currently struggling with.

Can you find any patterns? Where do you make careless mistakes?  
Figure out where you should slow down when testing.

\*If you're already caught up with your error log, you can also use this day to catch-up on or review any of this week's assignments.

## Day 7: Take a Break

**Relax** and prepare for the next round of studying!

## Day 8: Quantitative Reasoning

In Quantitative Reasoning (QR), watch the following videos and complete any associated practice quizzes:

[Properties of Real Numbers](#)

[Positive and Negative Numbers](#)

[Positive and Negative Numbers II](#)

[Quiz: Positive and Negative Numbers](#)

**Error Log Review: Positive and Negative Numbers Quiz**

[Order of Operations](#)

[Quiz: Order of Operations](#)

**Error Log Review: Order of Operations Quiz**

## Day 9: Quantitative Reasoning

In Quantitative Reasoning (QR), watch the following videos and complete any associated practice quizzes:

[Intro to Decimals](#)

[Quiz: Intro to Decimals](#)

**Error Log Review: Intro to Decimals**

[Intro to Fractions](#)

[Fraction Properties I](#)

[Quiz: Fraction Properties](#)

**Error Log Review: Fraction Properties**

## Day 10: Quantitative Reasoning

[Comparing Fractions I](#)

[Comparing Fractions II \(Advanced\)](#)

[Mixed Numerals and Improper Fractions](#)

[Fraction Properties II](#)

[Quiz: Fraction Properties II](#)

**Error Log Review: Fraction Properties II**

[Word Problems with Fractions](#)

[Quiz: Arithmetic and Fractions](#)

**Error Log Review: Arithmetic and Fractions**

## Magoosh Custom Practice:

From your dashboard select Practice → Custom Practice → All Quantitative Reasoning. Select “clear all” and then check the box for Arithmetic and Fractions.

- 10 QR questions. Subject: Arithmetic and Fractions

## Day 11: Verbal Reasoning

Watch the following videos and complete any associated practice quizzes:

[Intro to Critical Reasoning](#)

[Dissecting an Argument](#)

[Common Argument Types](#)

[General CR Strategy](#)

[Weakening the Argument](#)

[Strengthening the Argument](#)

[Assumption Questions](#)

[Trap Answers](#)

## Magoosh Custom Practice:

From your dashboard select Practice → Custom Practice → Verbal Reasoning → Critical Reasoning. Select “clear all” and then check the boxes for Strengthening and Weakening questions.

- 10 VR questions. Subject: Critical Reasoning, Strengthening and Weakening.

## Review

If you have not done so as you worked through the questions, be sure you review all the practice questions you've attempted this week.

## Day 12: Quantitative Reasoning

In QR, watch the following videos and complete any associated practice quizzes:

[Intro to Percents](#)

[Working with Percents](#)

[Quiz: Working with Percents](#)

**Error Log Review: Working with Percents Quiz**

[Number Sense and Percents](#)

[Percent Increases and Decreases](#)

[Quiz: Percent Increases and Decreases](#)

**Error Log Review: Percent Increases and Decreases Quiz**

## Day 13: Quantitative Reasoning

In QR, watch the following videos and complete any associated practice quizzes:

[Intro to Ratios](#)

[Combining Ratios](#)

[Ratios and Rates](#)

[Quiz: Ratios and Rates](#)

**Error Log Review: Ratios and Rates Quiz**

[Ratios and Percents](#)

[Quiz: Ratios and Percents](#)

**Error Log Review: Ratio and Percents Quiz**

### **Magoosh Custom Practice:**

From your dashboard select Practice → Custom Practice → All Quantitative Reasoning. Select “clear all” and then check the box for Percents and Ratios.

- 10 QR questions. Subject: Percents and Ratios.

### **Day 14: Take a Break**

**Relax** and prepare for the next round of studying!

### **Day 15: Mock Test**

**In Magoosh, take a full-length practice test!**

In your dashboard, navigate to Practice → Practice Test, choose the order in which you want to take the sections, and then start your practice test.

Try to mimic the GMAT conditions. You can review your test immediately after completion or save it for tomorrow.

## Day 16: Mock Test Review

### Review

If you didn't do this yesterday, open your error log for a deep-dive review of the practice test. During this session with your error log, continue to determine which question types you are currently struggling with the most. If you notice that pacing is a problem, review your error log to find the questions that are taking more time than you can allot. Also note places where you should have spent MORE time.

\*You can also use this day to catch-up on or review any of this week's assignments.

## Day 17: Quantitative Reasoning

In QR, watch the following videos and complete any associated practice quizzes:

[Divisibility](#)

[Divisibility Rules](#)

[Quiz: Divisibility Rules](#)

**Error Log Review: Divisibility Rules Quiz**

[Prime Numbers](#)

[Prime Factorization](#)

[Quiz: Prime Factorization](#)

**Error Log Review: Prime Factorization Quiz**

## Day 18: Quantitative Reasoning

In QR, watch the following videos and complete any associated practice quizzes:

[Multiples](#)

[Least Common Multiple](#)

[Testing Cases](#)

[Remainders](#)

[Integer Property Strategies](#)

[Quiz: Integer Properties Strategies](#)

**Error Log Review: Integer Properties Strategies Quiz**

[Quiz: Integer Properties](#)

**Error Log Review: Integer Properties Quiz**

### **Magoosh Custom Practice:**

From your dashboard select Practice → Custom Practice → Quantitative Reasoning → All Quantitative Reasoning. Select “clear all” and then check the box for Integer Properties questions.

- 10 QR questions. Subject: Integer Properties.

### **Review**

If you have not done so as you worked through the questions, be sure you review all the practice questions you’ve attempted.

## Day 19: Data Insights

Watch the following videos and complete any associated practice quizzes:

[Fundamentals of Data Sufficiency](#)

[DS Elimination Method](#)

[Avoiding Common DS Mistakes](#)

[Introductory DS Strategies](#)

[Word Problems, Summarizing Information](#)

[Quiz: Word Problems](#)

**Error Log Review: Word Problems Quiz**

[DS with Integer Constraints](#)

[Tautological Statements](#)

[Quiz: Data Sufficiency](#)

**Error Log Review: Data Sufficiency Quiz**

### Magoosh Custom Practice:

From your dashboard select Practice → Custom Practice → Data Insights (DI) → Data Sufficiency. Select “select all.”

- 10 DI questions. Subject: Data Sufficiency

### Review

If you have not done so as you worked through the questions, be sure you review all the practice questions you’ve attempted.

## Day 20: Quantitative Reasoning

Watch the following videos and complete any associated practice quizzes:

[Intro to Algebra](#)

[Simplifying Expressions](#)

[Quiz: Simplifying Expressions](#)

**Error Log Review: Simplifying Expressions Quiz**

[Multiplying Expressions](#)

[FOIL Method](#)

[Quiz: FOIL Method](#)

**Error Log Review: FOIL Method Quiz**

## Day 21: Take a Break

Relax and prepare for the next round of studying!

## Day 22: Quantitative Reasoning

Watch the following videos and complete any associated practice quizzes:

[Factoring - Quadratics](#)

[Quiz: Factoring Quadratics](#)

**Error Log Review: Factoring Quadratics Quiz**

[Factoring-Combined](#)

[Advanced Numerical Factoring](#)

[Factoring-Rational Expressions](#)

[Quiz: Factoring- Rational Expressions](#)

**Error Log Review: Factoring- Rational Expressions Quiz**

## Day 23: Quantitative Reasoning

Watch the following videos and complete any associated practice quizzes:

[Basic Equation Solving](#)

[Quadratic Equations](#)

[Quiz: Quadratic Equations](#)

**Error Log Review: Quadratic Equations Quiz**

[Two Equations, Two Unknowns-II](#)

[System-Number of Solutions](#)

[Three Equations with Three Unknowns](#)

[Quiz: Three Equations, Three Unknowns](#)

**Error Log Review: Three Equations, Three Unknowns Quiz**

## Day 24: Quantitative Reasoning

[Absolute Value Equations](#)

[Function Notation](#)

[Quiz: Function Notation](#)

## **Error Log Review: Function Notation Quiz**

[Strange Operators](#)

[Quiz: Strange Operators](#)

## **Error Log Review: Strange Operators Quiz**

[Inequalities 1](#)

[Inequalities 2](#)

[Quiz: Inequalities](#)

## **Error Log Review: Inequalities Quiz**

# Day 25: Quantitative Reasoning

[Absolute Value Inequalities](#)

[Simplifying with Substitutions](#)

[Quiz: Simplifying with Substitutions](#)

## **Error Log: Simplifying with Substitutions Quiz**

[Quiz: Algebra, Equations, and Inequalities](#)

## **Error Log Review: Algebra, Equations, and Inequalities Quiz**

## **Magoosh Custom Practice:**

From your dashboard select Practice → Custom Practice → All Quantitative Reasoning. Select “clear all” and then check the box for Algebra.

- 10 QR questions. Subject: Algebra

## Review

If you have not done so as you worked through the questions, be sure you review all the practice questions you've attempted.

## Day 26: Verbal Reasoning

Watch the following videos and complete any associated quizzes:

[Intro to Reading Comprehension](#)

[Approaching the Passage](#)

[Understanding Structure](#)

[Dissecting the Passage](#)

[Approaching the Questions](#)

[Answer Choice Traps](#)

## Magoosh Custom Practice:

From your dashboard select Practice → Custom Practice→Verbal Reasoning→ Reading Comprehension. Select "select all."

- 10 VR questions. Subject: Reading Comprehension.

## Review

If you have not done so as you worked through the questions, be sure you review all the practice questions you've attempted.

## Day 27: Take a Break

Relax and prepare for the next round of studying!

## Day 28: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Intro to Word Problems](#)

[Assigning Variables](#)

[Quiz: Assigning Variables](#)

**Error Log Review: Assigning Variables Quiz**

[Writing Equations](#)

[Number of Variables](#)

[Quiz: Number of Variables](#)

**Error Log Review: Number of Variables Quiz**

[Age Questions](#)

[Quiz: Age Questions](#)

**Error Log Review: Age Questions Quiz**

## Day 29: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Intro to motion questions](#)

[Average Speed](#)

[Quiz: Average Speed](#)

**Error Log Review: Average Speed Quiz**

[Multiple Traveler Questions](#)

[Shrinking and Expanding Gaps](#)

[Work Questions](#)

[Quiz: Work Questions](#)

**Error Log Review: Work Questions Quiz**

## Day 30: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Growth and Decay](#)

[Mixture Questions](#)

[Quiz: Mixture Questions](#)

**Error Log: Mixture Questions Quiz**

[Double Matrix Method](#)

[Three Criteria Venn Diagrams](#)

[Arithmetic Sequences](#)

[Quiz: Arithmetic Sequences](#)

**Error Log: Arithmetic Sequences Quiz**

[Backsolving](#)

[Quiz: Backsolving](#)

**Error Log: Backsolving Quiz**

## Day 31: Data Insights

Watch the following videos and complete any associated quizzes:

[The IR Calculator](#)

[General IR Strategies](#)

[Multi-Source Reasoning](#)

[Bradley Metalworks 1 \(Practice\)](#)

[Bradley Metalworks 2 \(Practice\)](#)

[Table Analysis](#)

[High School Exams \(Practice\)](#)

## Day 32: Mock Test

**In Magoosh, take a full-length practice test!**

In your dashboard, navigate to Practice → Practice Test, choose the order in which you want to take the sections, and then start your practice test.

Try to mimic the GMAT conditions. You can review your test immediately after completion or save it for tomorrow.

## Day 33: Mock Test Review

### Review

If you didn't do this yesterday, open your error log for a deep-dive review of the practice test. During this session with your error log, determine which question types you are currently struggling with the most in regards to timing. If running out of time is not an issue for you, review your error log to find the questions where you should have spent MORE time. Can you find any patterns? Where do you make careless mistakes? Figure out where you should slow down when testing.

\*You can also use this day to catch-up on or review any of this week's assignments.

## Day 34: Take a Break

Relax and prepare for the next round of studying!

## Day 35: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Intro to VICs](#)

[VICs - Algebraic Approach](#)

[VICs - Picking Numbers](#)

[Quiz: Word Problems](#)

**Error Log Review: Word Problems Quiz**

[Laws of Exponents II](#)

[Equations with Square Roots](#)

[Fractional Exponents](#)

[Exponential Equations](#)

[Quiz: Powers and Roots](#)

### **Error Log Review: Powers and Roots Quiz**

### **Magoosh Custom Practice:**

From your dashboard select Practice → Custom Practice → All Quantitative Reasoning. Select “clear all” and then check the boxes for Word Problems & Powers and Roots.

- 15 QR questions. Subject: Word Problems & Powers and Roots.

### **Review**

If you have not done so as you worked through the questions, be sure you review all the practice questions you’ve attempted.

## **Day 36: Data Insights**

Watch the following videos and complete any associated quizzes:

[Graphics Interpretation](#)

[Types of Graphics](#)

[Venn Diagrams](#)

[Scatterplots](#)

[More on Scatterplots](#)

[Three Companies \(Practice\)](#)

[Numerical Flowchart \(Practice\)](#)

## Day 37: Verbal Reasoning

Watch the following videos and complete any associated quizzes:

[Conclusion and Inference](#)

[Bold-Faced Questions](#)

[Flawed Argument Questions](#)

[Paradox Questions](#)

[Evaluating the Conclusion](#)

[Miscellaneous CR Tips](#)

[Critical Reasoning Example #1](#)

[Critical Reasoning Example #2](#)

[Quiz: Critical Reasoning](#)

**Error Log Review: Critical Reasoning Quiz**

### Magoosh Custom Practice:

From your dashboard select Practice → Custom Practice → Verbal Reasoning → Critical Reasoning. Select “clear all” and then check the boxes for Evaluating, Paradox, Conclusion/Inference, Flawed Argument, and Structure.

- 10 VR questions. Subject: Critical Reasoning, Evaluating, Paradox, Conclusion/Inference, Flawed Argument, and Structure.

## Day 38: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Mean, Median, and Mode](#)

[More on Mean and Median](#)

[Weighted Averages 1](#)

[Weighted Averages II \(Advanced\)](#)

[Quiz: Weighted Averages 2](#)

**Error Log Review: Weighted Averages II Quiz**

## Day 39: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Range and Standard Deviation](#)

[More Standard Deviation](#)

[The Normal Distribution](#)

[Quiz: The Normal Distribution](#)

[Quiz: Statistics](#)

**Error Log Review: Statistics Quiz & The Normal Distribution Quiz**

## Magoosh Custom Practice:

From your dashboard select Practice → Custom Practice → All Quantitative Reasoning. Select “clear all” and then check the box for Statistics.

- 10 QR questions. Subject: Statistics

## Review

If you have not done so as you worked through the questions, be sure you review all the practice questions you’ve attempted.

## Day 40: Verbal Reasoning

Watch the following videos and complete any associated quizzes:

[Primary Purpose](#)

[Detail Questions](#)

[Inference Questions](#)

[Miscellaneous RC Tips](#)

[RC Example, Passage #1 Path Dependence](#)

[RC Example, Passage #1, Question #1](#)

[RC Example, Passage #1, Question #2](#)

[RC Example, Passage #2, Office Organization](#)

[RC Example, Passage #2, Question #1](#)

[RC Example, Passage #2, Question #2](#)

[Quiz: Reading Comprehension](#)

## **Error Log Review: Reading Comprehension Quiz**

### **Magoosh Custom Practice:**

From your dashboard select Practice → Custom Practice→Verbal Reasoning→ Reading Comprehension. Select “select all.”

- 10 VR questions. Subject: Reading Comprehension

### **Review**

If you have not done so as you worked through the questions, be sure you review all the practice questions you’ve attempted.

## **Day 41: Data Insights**

Watch the following videos and complete any associated quizzes:

[Intro Two-Part Analysis](#)

[Verbal Two Part Analysis](#)

[Math Two-Part Analysis](#)

[Highway to Hillsborough \(Practice\)](#)

[Algebraic Sequence \(Practice\)](#)

[Quiz: Integrated Reasoning](#)

## **Error Log Review: Integrated Reasoning**

## Magoosh Custom Practice:

From your dashboard select Practice → Custom Practice→Data Insights  
→ Integrated Reasoning. Select “select all.”

- 10 DI questions. Subject: Data Insights, Integrated Reasoning

## Day 42: Take a Break

**Relax** and prepare for the next round of studying!

## Day 43: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Introduction to Counting](#)

[Fundamental Counting Principle](#)

[Quiz: Fundamental Counting Principle](#)

**Error Log Review: Fundamental Counting Principle**

[FCP with Restrictions](#)

[Quiz: FCP with Restrictions](#)

**Error Log Review: FCP with Restrictions**

[Factorial Notation](#)

[Quiz: Factorial Notation](#)

**Error Log Review: Factorial Notation**

## Day 44: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Counting what you don't want](#)

[Counting with Identical Items](#)

[Combinations](#)

[Quiz: Combinations](#)

### **Error Log Review: Combinations Quiz**

[When to use Combinations](#)

[Calculating Combinations](#)

[Counting Strategies](#)

[Quiz: Counting](#)

### **Error Log Review: Counting Quiz**

## **Magoosh Custom Practice:**

From your dashboard select Practice → Custom Practice → All Quantitative Reasoning. Select “clear all” and then check the box for Counting.

- 10 QR questions. Subject: Counting

## **Review**

If you have not done so as you worked through the questions, be sure you review all the practice questions you’ve attempted.

## Day 45: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Intro to Probability](#)

[Complementary Events and Simple Rules](#)

[Mutually Exclusive Events](#)

[Quiz: Mutually exclusive events](#)

**Error Log Review: Mutually Exclusive Events**

[Probability of Event A or B](#)

[Examples of the Or rule](#)

[Quiz: Examples of the Or rule](#)

**Error Log Review: Examples of the Or Rule Quiz**

## Day 46: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Independent Events](#)

[Examples of the And Rule](#)

[Quiz: Examples of the And rule](#)

**Error Log Review: Examples of the And Rule**

[Generalized And Rule](#)

[Examples of generalized And rule](#)

[Binomial Situation](#)

[Quiz: Binomial Situation](#)

**Error Log Review: Binomial Situation Quiz**

## Day 47: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[The "At Least" Scenario](#)

[Quiz: The "At least" Scenario](#)

**Error Log Review: The "At Least" Scenario Quiz**

[Analyzing Questions](#)

[Quiz: Analyzing Questions](#)

**Error Log Review: Analyzing Questions Quiz**

[Using Counting Techniques](#)

[Quiz: Using Counting Techniques](#)

**Error Log Review: Using Counting Techniques Quiz**

## Day 48: Quantitative Reasoning

Watch the following videos and complete any associated quizzes:

[Listing vs. Counting vs. Probability Rules](#)

[Quiz: Listing vs. Counting vs. Probability Rules](#)

## **Error Log Review: Listing vs. Counting vs.... Quiz**

[General Probability Strategies](#)

[Quiz: General Probability Strategies](#)

## **Error Log Review: General Probability Strategies**

[Guessing Strategies](#)

[Quiz: Probability](#)

## **Error Log Review: Probability Quiz**

### **Magoosh Custom Practice:**

From your dashboard select Practice → Custom Practice → All Quantitative Reasoning. Select “clear all” and then check the boxes for Probability.

10 QR questions. Subject: Probability.

### **Day 49: Take a Break**

**Relax** and prepare for the next round of studying!

### **Day 50: Practice**

#### **Miscellaneous Practice:**

Take a QR, VR, or DI section test and then break out your Error Log for analysis of any questions that you missed. Tip! Focus on your weaker section.

## Day 51: Practice

### **Miscellaneous Practice:**

Take a QR, VR, or DI section test and then break out your Error Log for analysis of any questions that you missed. Tip! Focus on your weaker section.

## Day 52: Practice

### **Miscellaneous Practice:**

Take a QR, VR, or DI section test and then break out your Error Log for analysis of any questions that you missed. Tip! Focus on your weaker section.

## Day 53: Error Log Deep Dive & Practice

**Error Log Deep Dive & More Practice:** Analyze the questions from your last three practice sessions. Continue to focus on the particular question types that still pose a challenge to you.

Rather than practice more of the question types that you identify, go back and review the lessons associated with them and then reattempt a few questions that you missed in previous practice sessions.

## Day 54: Full-Length Practice Test

**Navigate to your GMAC account and take one of the first free full-length Focus practice tests!**

You can access them [here](#).

Remember to do your best to mimic the GMAT conditions. Note how your sleep the night before affects your work. Note how what you had for dinner the previous night and what you had to eat earlier that day affects your energy level and concentration. Review your test immediately after completion or save it for tomorrow since that is the focus of the next session.

## Day 55: Practice Test Review

Open your error log for a deep-dive review of yesterday's practice test. During this session with your error log, spend time to reflect on your pacing strategy. Determine which question types you are currently struggling with the most in regards to pacing. If running out of time is not an issue for you, review your error log to find the questions where you should have spent MORE time. Can you find any patterns? Where do you make careless mistakes? Figure out where you should slow down when testing.

## Day 56: Take a Break

**Relax** and prepare for the last round of studying!

## Day 57: OG Practice Test II

**Navigate to your GMAC account and take the other free full-length Focus practice test!**

You can access them [here](#).

Remember to do your best to mimic the GMAT conditions. Again, note how your sleep the night before affects your work. Note how what you had for dinner the previous night and what you had to eat earlier that day affects your energy level and concentration. Review your test immediately after completion or save it for tomorrow since that is the focus of this week's day two.

## Day 58: Practice Test Review

Open your error log for a deep-dive review of yesterday's practice test and your *entire* question journey. As always, do the following:

- Determine and make note of why you missed the question
- Return to the Magoosh lessons and watch any that relate to the questions you missed in this O.G. practice.
- Be aware of any trends that help you identify your strengths and weaknesses.

## Day 59: Take a Break

**Relax** and prepare for your official GMAT test!

# COUNTDOWN TO THE EXAM:

## Day Before the Test

No GMAT preparation all day!

Eat a large, healthy, leisurely dinner – no alcohol!

Go to bed earlier than usual.

## Day of Test

ABSOLUTELY NO LAST-MINUTE GMAT PREPARATION!

Eat a large breakfast, full of protein

Do relaxing, fun activities to pass time until the test

## Bring to the Test

A liter of water

Healthy energy-packed snacks (nuts, protein bar, etc.)

Take the optional break and be sure to get up, move & stretch – moving & stretching the large muscles of the body (legs & torso) will get oxygen flowing throughout, which will help keep you awake and keep you thinking clearly.

**Good luck!**
